Ermelio Antolini received his PhD in Chemistry from the University of Genova, Italy. He worked at Ansaldo Ricerche, Genova, Italy, ENEA, Roma, Italy and Scuola Scienza Materiali, Genova, Italy. He was a visiting professor at Ecole National de Chimie, Paris, France, 1999, and at Institute of Chemistry of USP, Sao Carlos, Brazil, 2001-2010. He has over 160 scientific publications with more than 19000 total citations and an H-index of 66 (GoogleScholar). He was recognized a Highly Cited Researcher 2014 by Thomson Reuters (ISI Web of Knowledge), and was in the World's Top 2% Scientists list, 2020, the first of Italians in the Enabling & Strategic Technologies field and in the Energy subfield. He is a member of the Editorial Boards of Applied Catalysis B: Environmental and Catalysts. His research interests focus on the development of materials for heterogeneous catalysis with emphasis on fuel cell catalysts.
